

2020IT go the extra mile

2020 IT in Falkirk have gone more than the extra mile to get a van full of computers to us.

It is amazing how generous some people can be in helping IT Schools Africa. For sometime Gordon Rae of 2020IT has been collecting computers from his clients and friends in Falkirk. The question was how to get them to us in Cheltenham. Jarvie Plant kindly provided a transit van for weekend, all that was needed was a driver. Step forward Zsolt Apatoczky (pictured left) from Hungary - he volunteered to drive the 700 mile round trip to get the computers to us. Gordon generously paid for the petrol. We are very grateful to Gordon, Zsolt and Jarvie for making it all happen.
