

Abercrombie & Kent donate

Abercrombie & Kent has donated equipment and money to our cause.

The leading Cheltenham-based luxury holiday company is currently upgrading the IT equipment used by its sales force, and made available 40 complete systems, comprising of Dell Optiplex 280 small form factor PCs with matching keyboards, mice and 17" flat screen monitors.

Karl Farrow, Head of IT, said 'we are very happy to support such a worthy cause, and it's good to know that the equipment will have another 4 to 5 years of use, before being recycled at Desco, the South African processing plant used by the charity to ensure nothing goes to landfill'.

We are very grateful to Abercrombie & Kent for offering us this redundant IT equipment, and for the cash donation of £100 it has made towards the charity.
